Subject: ACCORD MARK VI - NURSES (ANF - WESTERN AUSTRALIAN PUBLIC
SECTOR AWARD 1989

As you are aware the Western Australian Government and the Trades and Labor Council (TLC) have finalised an agreement on the framework for the implementation of Accord Mark VI for employees in the WA public sector. This includes a \$12 per week pay increase effective from the first pay period commencing on or after 16 May 1991.

The Australian Nursing Federation (WA Branch) which is respondent to the above award and affiliated to the TLC is bound by the agreement between the Government and the TLC. However, payment of the \$12 is deferred at this stage to allow time to finalise outstanding concerns raised by the union.

DOPLAR is meeting with the ANF and the TLC in an attempt to progress the matter. Until such time as agreement has been reached and you are advised, employees covered by the above award are not to be paid the \$12 per week increase.

Peter J Brennan
