1.26. Perceived need for friendships

1.27 Overall socialising during the last 12 months

- How have you been getting on with other people at work, neighbours, and members of your family during the last 12 months?
- Did you go out on any social activities?
- Did you meet any friends, or would you say that you were a bit reserved? e.g. Did you make any telephone calls to friends or other people you knew?
- How much of the time did you spend alone, in your own room, or just walking around?
- Did you feel lonely?

Rate overall socialising during the last 12 months.

0=**No dysfunction**: has been socialising during the period as much as could be expected of an average person of same sex, age group and social background

1=**Obvious dysfunction**: may regard some people as friends but actual socialising with them is minimal, & significantly reduced; sporadic participation in any organised activities

2=**Severe dysfunction**: no friends and no organised social activities; extremely restricted social relationships outside the household.

8=Uncertain or impossible to assess

9=NA

## SOCIAL WITHDRAWAL

### 1.28 Social withdrawal during the last 12 months

- **Would you say that, over the past 12 months, you enjoyed company a lot, or preferred to be on your own?**
- **Did you find it difficult to mix or communicate with people?**
- **Did you prefer to be left alone? About how much of the time did you spend doing things by yourself?**
- **Would you join the company of others if encouraged to do so or would you normally refuse even if asked?**
- **Did the presence of other people bother you?**

Rate social withdrawal: i.e. social isolation which is not imposed by others or by the circumstances, but results mainly from respondent's active avoidance of social contracts.

0=**No dysfunction**: mixes, talks and generally interacts with people as much, or more, than an average person of same sex and age group would under similar circumstances.

1=**Obvious dysfunction**: maintains a very restricted range of social contacts, generally avoids being with other people, but would mix with people if encouraged or pressured.

2=**Severe dysfunction**: marked tendency to self-isolation, not responsive to encouragement, inaccessible, may frequently lock himself up or wander aimlessly

8=Uncertain or impossible to assess

9=NA

1.28. Social  
withdrawal

1.29 *Perceived deterioration in interpersonal relationships: last 12 months vs. previous years*

- **If you compare the past 12 months with previous years, do you think that your relations with friends, work mates or other persons may have got worse?**
- **Did this happen because of your health or nervous problems?**
- **Or because you lost interest or motivation?**
- **Or because others have lost interest in maintaining a relationship with you?**

0= no deterioration perceived in past year compared to previous years

1= deterioration perceived, mainly attributed to respondent's own health/nervous problems, or loss of interest

2= deterioration perceived, mainly attributed to other people's loss of interest

4= improvement perceived in past year compared to previous years

## CONFIDING RELATIONSHIPS, INTIMACY, SEX LIFE

### 1.30 Intimate relationship(s): ever and during last 12 months

- During the last 12 months, have you had a close female I male friend - someone that you would share your thoughts and feelings with, or think of as a best friend, or someone you might rely on for support when you need it?
- Have you ever had such a special relationship?
- How often do you see this special friend?

Rate intimate/confiding/affective/supportive relationships (not restricted to physical intimacy!)

0= **No dysfunction:** has close &/or an intimate relationship(s) during the last 12 months.

1= **Obvious dysfunction:** has had close friend(s) or intimate relationship(s) in the past but not during the last 12 months.

2= **Severe dysfunction:** never had close friend(s) or intimate relationship(s).

8= Uncertain or impossible to assess

9= NA

1.30. Intimate relationship(s)

### 1.31 Sexual relationship(s): last 12 months

- **Do you mind if I ask you some questions about your sex life?**

If respondent agrees to discuss the topic, ask probes for the last 12 months.

- **Have you had a sexual relationship during the last 12 months?**
- **Have you had a steady sexual partner during the last 12 months?**
- **Has your sex life generally been satisfactory to you?**
- **Have you experienced any problems with your sex life?**

Rate overall quality of sexual relationships

0=**No dysfunction**: has had sexual relationship, is generally satisfied with sex life

1=**Obvious dysfunction**: has had sexual relationship or opportunities but generally dissatisfied with sex life, regardless of reason (psychosexual dysfunction, or marked reduction of interest or desire).

2=**Severe dysfunction**: for most of the time: total loss of interest or desire, or serious discord with partner(s) over sexual side of the relationship.

8=Impossible to assess, e.g. refusal to discuss

9=NA: no relationship or opportunities for sex life

1.31. Sexual
