Clinical Services Planning and Programs Policy Framework

1. Policy framework statement

The Clinical Services Planning and Programs Policy Framework specifies the mandatory policy requirements that all Health Service Providers (HSPs) must comply with in order to ensure effective and consistent clinical service planning and program activity across the WA health system.

This policy framework has been developed within the context of the WA Health Clinical Services Framework 2014-2024; the Government’s blueprint to guide the provision and delivery of safety, high quality public health care in Western Australia.

2. Purpose

The Director General (DG) of the Department of Health is the System Manager responsible for the overall management, strategic direction and stewardship of the WA health system. The DG will use policy frameworks to ensure a consistent approach to a range of matters undertaken by HSPs. Policy frameworks must be complied with and implemented as a part of ongoing operations.

The purpose of this policy framework is to ensure:

- consistency of priorities and strategic directions for clinical service planning across the WA health system
- coordination and integration of clinical services
- clinical service programs are person-centred, based on evidence and within a culture of continuous improvement
- efficiency and effectiveness in the provision of clinical services.

For this policy framework:

- Clinical Health Service is defined as: a single, diagnostic, therapeutic, rehabilitative, preventative or palliative procedure or a series of such procedures that may be separately identified for billing and accounting purposes/service. It can also refer to a clinical or support service provided under the auspices of an organisation or facility.
- Clinical Service Planning is defined as: identifies the priorities and strategic directions for clinical services or plans to guide delivery of services.
- Clinical Service Programs is defined as: an organised aggregate of activities directed towards the attainment of defined objectives and targets. A health program is an organised series of activities directed towards the attainment of defined health objectives and targets with a health service defined as a service performed by health professionals or by others under their direction, for the purpose of promoting, maintaining or restoring health.
3. Applicability
This policy framework is binding on each HSP to which it applies or relates.

4. Principles
The key principles that underpin this policy framework are:

Compliance and Alignment
Uphold compliance with relevant legislation and maintain alignment to the WA health system’s overarching statewide plans.

Consistency
Ensure consistency with Commonwealth and State Government policies and agreements.

Evidence-based and Accessible
Development and review utilises robust research and evidence. Ensure effective consultation and communication with all relevant stakeholders. Information is accessible to all stakeholders and intended audiences.

WA Health Strategic Intent 2015-2020
Support for the WA community to become healthier with a focus on prevention and support for healthier lifestyle choices; and work with primary health providers and carers to provide integrated and more accessible services.

Increased Health Service efficiency and effectiveness in hospital service delivery; and reduced demands on traditional hospital services.

Increased awareness and improved early detection and intervention of chronic diseases; and reduced numbers of people living with chronic disease through the provision of support for healthier lifestyles.

Continuous commitment to strengthened and embedded approaches to Aboriginal health and wellbeing; increased Aboriginal consumer, carer and community involvement to achieve culturally appropriate health services; and implemented strategic partnerships to improve health services for Aboriginal people.

5. Legislative context
The Health Services Act 2016 refers to policy frameworks in ss. 26-27 and s. 34(2)(c).

The legislation below, may also apply:

- Mental Health Act 2014
- Health and Disability Services (Complaints) Act 1995
- Health Insurance Act 1973
- The Disability Services Act 1993

6. Mandatory requirements
Under this policy framework HSPs must comply with all mandatory requirements* including:

Aged Care
- Requirements for Aged Care Assessment in Multipurpose Services - IC 0174/14
- Security of Tenure for Residents of Aged Care Facilities - OD 0214/09
- Transition Care for the Older Person - OD 0290/10
- WA Health Day Therapy Unit Service Delivery Guidelines 2014 - OD 0524/14
Clinical Services Planning and Programs Policy Framework

Child Health
- Bilateral Schedule: Interagency Collaborative Processes When an Unborn or Newborn Baby Is Identified as at Risk of Abuse and/or Neglect – OD 0518/14
- Guidelines for Protecting Children 2015 – OD 0606/15

Diabetes
- Foot Care for People with Diabetes – Standards and Clinical Guidelines
- Western Australia Framework for Action on Diabetes and Diabetes Service Standards 2014

Elective Services
- Urgency Categorisation and Access Policy for Public Direct Access Adult Gastrointestinal Endoscopy Services - MP 0045/17
- Elective Surgery Access and Waiting List Management Policy - MP 0050/17

Emergency Care
- Access to Public Hospital Services (Including Emergency Services) for Eligible Patients OP – 1503/01
- Ambulance Distribution Model - OD 0608/15
- Ambulance Handover in Emergency Departments - OD 0613/15
- Coordinated medical and forensic and counselling response to patients who experience a recent sexual assault and present to an emergency department - OP 1928/05
- ‘Parry Pack’ retrieval kit policy and contents guideline - IC 0065/12
- Recording and Reporting of Clinical Care Commencement Date and Time in the Emergency Department - OD 0590/15
- Triage of Metropolitan Emergency Department Patients that Arrive via Ambulance into the Waiting Room - OD 0351/11

Maternity
- WA Health Policy for publicly funded Home Births including guidance for consumers, health professionals and health services - OD 0482/13
- Women requesting immersion in water for pain management during labour and/or birth policy - MP 0049/17

Newborns and Infants
- Newborn Hearing Screening - OD 0239/19
- Safe Infant Sleeping - OD 0474/13

Outpatient Services
- Administrative Procedures – Ambulatory Surgery Initiative - OP 1816/04
- Central Referral Allocation – Outpatient Services - OD 0503/14
- National Standards for Public Hospital Admitted Patient Election Processes - OP 1761/14
- Nutrition Standards for Adult Inpatients in WA Hospitals - OD 0636/15
- Specialist Outpatient Services Access Policy - OD 0530/14

Other
- Aboriginal Health and Wellbeing Policy – MP 0071/17
- Oral Health Program - BB 45/1
- WA Health Policy: Provision of Aids, Equipment and Home Modifications - OD 0353/11
Any mandatory requirement document that references the *Hospitals and Health Act 1927* must be interpreted as a requirement under the *Health Services Act 2016*.
