Contents

Abbreviations

FTP	File Transfer Protocol
ICT	Information and Communications Technology
IHACPA	Independent Health and Aged Care Pricing Authority
NADC	Non-Admitted Data Collection
NMDS	National Minimum Data Set
PAS	Patient Administration System
WA	Western Australia
WACHS	Western Australian Country Health Service

1. Purpose

The purpose of the *Non-Admitted Data Collection Data Specifications* is to outline the requirements for Health Service Providers and Contracted Health Entities to report non-admitted patient activity to the Department of Health.

The *Non-Admitted Data Collection Data Specifications* is a related document mandated under *MP 0164/21 Patient Activity Data Policy.*

These data specifications are to be read in conjunction with this policy and other related documents and supporting information as follows:

- *Non-Admitted Patient Activity Data Business Rules*
- *Non-Admitted Data Collection Data Dictionary*
- *Patient Activity Data Policy Information Compendium*.

2. Background

Non-admitted patient activity must be recorded in an approved Patient Administration System (PAS) in an accurate and timely manner so that the data is available and can be accessed for inclusion into the Non-Admitted Data Collection (NADC).

For the purposes of this document, the terms "patient" and "client" are used interchangeably. In the non-admitted setting there is a shift towards using the term "client" as an acknowledgement that some services provided are not for direct treatment of a health condition, but rather involve collaboration with a person to empower them as individuals.

3. Contact details requirements

Data providers must complete the contact details form (Appendix A) and provide contact details for two people who can be contacted in the event of data submission queries or issues:

- ICT technical contact - for data load/extract issues
- Information management contact - for data queries.

4. Submission of data

Data must be submitted to the NADC in accordance with the data submission schedule (Section 0) and Data Element Listing (Section 6) outlined below, unless otherwise agreed with the NADC Data Custodian.

4.1 Data file format

Data files must be sent in comma separated value (csv) file format with double quote text qualifiers. The first row of the text file must contain field names.

For example, the first five columns of data:

"establishment_code","establishment_site_code","client_identifier","client_secondary_identifier","family_name...

"0104","","00531578874","A1547896742","Rioli...

"0165","456687","U5387459877","","Long...

4.2 File naming standards

The file name format of data submitted must conform to the following standard:

NAP_DATAPROVIDER_PASSYSTEM_ V001_YYYYMM*DD*_.txt

Where

- **NAP** is a fixed value meaning Non-Admitted Patient
- **V001** is the feeder system version number effective from 1 July 2024
- **DATAPROVIDER** is the abbreviated name of the data provider/hospital providing the non-admitted patient activity data (assigned by the Department)
- **PASSYSTEM** is the name of the PAS from where the data is extracted (assigned by the Department)
- **YYYYMM*DD***, is the end date of the period of data being submitted:
    - **YYYY** is the year, including century, of the end period of the data submitted
    - **MM** is the end month of the period of data being submitted, as two digits
    - **DD** is the day of the month, as two digits, of the date of the data submitted - if submitting data on a daily basis.

For example, NAP_ 0642_MEDI_ V001_202409.csv → Non-Admitted Patient data provided monthly by Joondalup Health Care from their Meditech PAS system with data up to 30 September 2024, submitted in October 2024, in the format specified by the data specifications effective from 1 July 2024.

4.3 Data submission method

Data files must be submitted to a nominated server via the method specified by the Department of Health.

5. Data submission schedule

Data providers that use a PAS, other than WA health system's web-based Patient Administration System (webPAS), are required to submit data at a frequency as requested by the Department of Health in an electronic format that is compliant with these specifications and the *Non-Admitted Data Collection Data Dictionary*.

Data must be made available for the relevant reporting reference period as per the schedule set below.

5.1 Daily extracts

Data for a completed day must be provided before 2:00am the following day. For example, data for 1 July 2024 (0:00 to 23:59) must be submitted by 2:00am on 2 July 2024.

5.2 Monthly extracts

Monthly data submissions must include the previous 12 months of data to the end of the reference period. For example, data due in April 2024 must contain data from 01 April 2023 to 31 March 2024.

This allows for changes in previous months to be updated with the latest record being provided to NADC.

Monthly extracts must be submitted by 3:00pm on the 3rd working day of the due month.

6. Data element listing

Data providers must ensure that data is submitted as per Appendix B (Non-Admitted Patient Data Element Listing).

7. Data quality and validation correction process

Data providers are responsible for the quality of data provided. Data quality validations are undertaken by the Department of Health Information and Performance Governance (IPG) Quality and Assurance Team to ensure that data is compliant with reporting specifications and the five data quality principles:

- relevance
- accuracy
- timeliness
- coherence
- interpretability.

Data validation and errors will be distributed to the reporting hospital via dashboards, spreadsheets or ad hoc communication. It is the responsibility of healthcare providers, administrative staff, clinical coding staff and clerical staff to complete and correct data validations within required timeframes as communicated by the Department.

Some examples of data quality validations may include:

- patient demographics
- reporting of blank or incorrect values

- availability of sufficient information to enable national reporting requirements.

Important - Any new classifications/codes that have been introduced into the PAS and which impact NADC fields, or otherwise any known changes that impact the structure of the extract file or the quality of its contents, must be communicated to the NADC Data Custodian (minimum of 14 days' notice) to ensure system processes are able to load the data into the NADC.

8. Glossary

The following definition(s) are relevant to this document.

Term	Definition
Custodian	A custodian manages the day-to-day operations of the information asset(s) and implements policy on behalf of the Steward and Sponsor.
Data Collection	Refer to Information Asset.
Data Specifications	Data Specifications mandate the list of data elements, format and submission schedule for each information asset.
Health Service Provider	As per section 6 of the *Health Services Act 2016*, a Health Service Provider established by an order made under section 32(1)(b).
Information asset	A collection of information that is recognised as having value for the purpose of enabling the WA health system to perform its clinical and business functions, which include supporting processes, information flows, reporting and analytics.
Patient Activity Data Business Rules	Patient Activity Data Business Rules mandate the rules, scope and criteria to be used when recording health service patient activity data and reporting to the Department of Health.
WA health system	The WA health system is comprised of: (i) the Department; (ii) Health Service Providers (North Metropolitan Health Service, South Metropolitan Health Service, Child and Adolescent Health Service, WA Country Health Service, East Metropolitan Health Service, PathWest Laboratory Medicine WA, Quadriplegic Centre and Health Support Services); and (iii) contracted health entities, to the extent they provider health services to the State.

Non-Admitted Data Collection
Data Provider Contact Details Form

The purpose of this form is to collect contact information for persons providing data to the Non-Admitted Data Collection (NADC).

Name of Data Provider or Feeder System   Click or tap here to enter text.

Date   Click or tap here to enter text.

ICT Technical Contact

Please provide details for the person to contact regarding technical queries (e.g. data loading, extract issues)

Name   Click or tap here to enter text.

Position   Click or tap here to enter text.

Organisation   Click or tap here to enter text.

Email   Click or tap here to enter text.

Phone   Click or tap here to enter text.

Information Management Contact

Please provide contact details for the person to contact regarding data queries (e.g. queries relating to data interpretation)

Name   Click or tap here to enter text.

Position   Click or tap here to enter text.

Organisation   Click or tap here to enter text.

Email   Click or tap here to enter text.

Phone   Click or tap here to enter text.

Please submit this form to NADCdata@health.wa.gov.au

Appendix B - Non-Admitted Patient Data Element Listing

	Data Element	Field name	Type	Requirement	Comments
1	Establishment	establishment_code	NNNN	Mandatory	A unique four-digit number that is assigned by Department of Health (WA) to hospitals and other health related locations or establishments.
2	Establishment Site	establishment_site_code	[X(6)]	Optional	Any other code that identifies a site, if available. **Condition:** this data element should be provided if available in the source system, otherwise leave blank.
3	Unit Medical Record Number	client_identifier	X(11)	Mandatory	Unit Medical Record Number, also referred to as Unique Medical Record Number. The same unique identifier is retained by the establishment for the patient for all events within that particular establishment.
4	Patient Secondary Identifier	client_secondary_identifier	[X(10)]	Conditional	A logical combination of valid alphanumeric characters that identifies a patient and is unique within an establishment or agency. **Condition:** if the source system collects this field then this is Mandatory, otherwise leave blank.
5	Family Name	family_name	X[X(49)]	Mandatory	The part of a name a patient usually has in common with other members of their family, as distinguished from their given names.
6	First Given Name	first_given_name	X[X(99)]	Mandatory	The first given name of the patient.
7	Second Given Name	second_given_name	[X(49)]	Conditional	The second given name of the patient. **Condition:** the collection of this field is conditional and should be recorded if the patient has a second given name
8	Date of Birth	date_of_birth	YYYY-MM-DD	Mandatory	Date on which the patient was born.
9	Date of Death	date_of_death	[YYYY-MM-DD]	Conditional	Patient's date of death **Condition:** if patient has died, otherwise leave blank.

	Data Element	Field name	Type	Requirement	Comments
10	Death Notification	death_notification_code	[XXX]	Conditional	The code that identifies how the notification of a patient's death was received, if available. **HOS** - Hospital **NOT** - No Notification **OTH** - Other **RAC** - Residential Aged Care **REL** - Relative **RGO** - Death Register **Condition:** if patient has died, then this field is Mandatory, otherwise leave blank.
11	Sex recorded at birth	sex_code	X[XX]	Mandatory	Sex recorded at birth is important clinical information and must be collected for all patients. Gender diverse patients must still report this field as 'Sex recorded at birth' and their current gender in the Gender Code field. **M** - Male **F** - Female **X** - Another term **UNK** - Unknown
12	Gender	gender_code	N	Mandatory	Gender is often used interchangeably with sex, however they are distinct concepts and it is important to differentiate between them. **1** - Man or male **2** - Woman, or female **3** - Non-binary **4** - Different term **5** - Prefer not to answer **9** - Not stated/ Inadequately described
13	Medicare Card Number	medicare_card_number	X(13)	Mandatory	Must be a valid current Medicare Number issued by Services Australia. Full Medicare Card details are used to define eligibility for specific services and not as a patient identifier. As persons can be listed on more than one Medicare Card, the full Medicare number is not a unique identifier and must not be used for this purpose.

	Data Element	Field name	Type	Requirement	Comments
14	Australian State or Country of Birth	country_or_state_of_birth_code	XXXX	Mandatory	The code list for Australian State or Country of Birth is drawn from the Australian Bureau of Statistics' Standard Australian Classification of Countries 2016 (SACC), with additional codes to allow the collection of the Australian state of birth.
15	Interpreter Required	interpreter_required_code	X	Mandatory	An indicator for whether an interpreter service is required by or for the patient. **N** - Interpreter not required **U** - Unknown/not stated **Y** - Interpreter required
16	Aboriginal Status	aboriginal_status_code	X	Mandatory	The patient's Aboriginal status, as represented by a code. **1** - Aboriginal but not Torres Strait Islander origin **2** - Torres Strait Islander but not Aboriginal origin **3** - Both Aboriginal and Torres Strait Islander origin **4** - Neither Aboriginal nor Torres Strait Islander origin **9** – Not stated/Inadequately described
17	Marital Status	marital_status_code	XXX	Mandatory	The patient's current relationship status in terms of a couple relationship or, for those not in a couple relationship, the existence of a current or previous registered marriage, as represented by a code. **DEF** - De Facto **DIV** - Divorced **MAR** - Married **NMA** - Never Married **SEP** - Separated **UNK** - Unknown **WID** - Widowed
18	Residential Address 1	residential_address_1	X[X(69)]	Mandatory	First line of the patient's residential street address at the time of the scheduled appointment.
19	Residential Address 2	residential_address_2	[X(70)]	Optional	Second line of the patient's residential street address at the time of the scheduled appointment.
20	Suburb	suburb	X[X(49)]	Mandatory	The name of the locality/suburb of the address, as

	Data Element	Field name	Type	Requirement	Comments
					represented by text.
21	Australian Postcode	postcode	XXXX	Mandatory	A postcode list is maintained with entries that are valid on the current list of postcodes from [Australia Post]().
22	State or Territory	state_code	XXX	Mandatory	The state or territory of usual residence of the patient, as represented by a code. **NSW** - New South Wales **VIC** - Victoria **QLD** - Queensland **SA** - South Australia **WA** - Western Australia **TAS** - Tasmania **NT** - Northern Territory **ACT** - Australian Capital Territory **OTH** - Other Territories **UNK** - Unknown **OS** - Overseas
23	Residential Status	residential_status_code	XXX	Mandatory	Patient's residential status for billing purposes, as represented by a code. **ASY** - Asylum Visa **BUS** - Business Visa **DET** - Detainee **EME** - Emergency Visa **EMR** - Emergency Rescue Visa **HUM** - Humanitarian **MED** - Medical Treatment **OMV** - Overseas Motor Vehicle Insurance Trust **OTE** - Overseas Foreign Defence **OVS** - Overseas Shipping **OVE** - Overseas Visitor **OWC** - Overseas Worker Compensable **PRO** - Temporary Protection **REC** - Reciprocal Overseas **REF** - Refugee Visa **RES** - Resident **RET** - Retirement Visa **SAC** - Special Activities **STU** - Student Visa **TEM** - Temporary Resident

	Data Element	Field name	Type	Requirement	Comments
					TOU - Tourist Visa **UNK** - Unknown **WHO** - Working Holiday Visa **WOR** - Working Visa
24	Phone Number 1	phone_number_1	[X(20)]	Optional	Patient's first contact telephone number at the time of the scheduled appointment.
25	Phone Number 2	phone_number_2	[X(20)]	Optional	Patient's second contact telephone number at the time of the scheduled appointment.
26	Postal Address 1	postal_address_1	[X(100)]	Optional	First line of the patient's postal address at the time of the scheduled appointment.
27	Postal Address 2	postal_address_2	[X(100)]	Optional	Second line of the patient's postal address at the time of the scheduled appointment.
28	Postal Suburb	postal_suburb	[X(50)]	Optional	The name of the locality/suburb of the postal address, as represented by text.
29	Postal Postcode	postal_postcode	[NNNN]	Optional	The Australian numeric descriptor for a postal delivery area for an address. The postcode relates to the patient's area of usual residence.
30	Postal State or Territory	postal_state_code	[XXX]	Optional	Patient's state of postal address, as represented by a code. **NSW** - New South Wales **VIC** - Victoria **QLD** - Queensland **SA** - South Australia **WA** - Western Australia **TAS** - Tasmania **NT** - Northern Territory **ACT** - Australian Capital Territory **OTH** - Other Territories **UNK** - Unknown **OS** - Overseas
31	Department of Veterans' Affairs File Number	dva_file_number	[X(12)]	Conditional	The Department of Veteran Affairs (DVA) file number. Required to identify those patients entitled to DVA funding for their medical care at the point of service.

	Data Element	Field name	Type	Requirement	Comments
					Condition: if the patient presents with a DVA Card this field is Mandatory.
32	Department of Veterans' Affairs Card Colour	dva_card_colour_code	XXX	Conditional	The Department of Veteran Affairs (DVA) card colour indicates the level of entitlement to additional health cover. **GOL** - Gold **ORN** - Orange **UNK** - Unknown **WHT** - White **Condition:** if the patient presents with a DVA Card this field is Mandatory.
33	Concession Card Type	concession_card_type_code	[X(22)]	Conditional	Concession card allowing recipients to access cheaper health services, medicines, and other benefits. Patients may have more than one concession card type. **CCC** - Current Concession **DVA** - Dept of Veteran Affairs **HCC** - Health Care Card **NDI** - National Disability Insurance Scheme **PCC** - Pension Concession Card **SAF** - Safety Net Number **SHC** - Seniors Health Card Condition: this data element should be provided if the patient presents with a Concession Card, otherwise leave blank. A patient may have more than one concession type, if so, string all codes into this data element.
34	Referral Account Number	referral_account_number	X[X(29)]	Mandatory	A unique identifier for the referral. This number would be against each appointment record for the same episode of care or referral events.
35	Referral Account Number 2	referral_account_number_2	[X(30)]	Optional	A second unique identifier for a referral registered to a patient administration system.
36	Referral Status	referral_status_code	XX	Mandatory	The status of the referral, as represented by a code. **CA** - Cancelled **CL** - Closed **IN** - Inactive **OP** - Open

	Data Element	Field name	Type	Requirement	Comments
					RE - Rejected **UN** - Unknown **WL** - On Waiting List
37	Referral Category	referral_category_code	XXX[X]	Mandatory	Refer to Appendix D – Reference Codes and Description.
38	Referral Received Date	referral_received_date	YYYY-MM-DD	Mandatory	The date on which a patient's referral is submitted for care or treatment This date marks the commencement of the referral wait time until a first appointment is attended.
39	Referral Priority	referral_priority_code	XXX	Mandatory	The priority/triage level of the referral, as represented by a code. **AWT** - Awaiting Triage **NUR** - Not Urgent **SEM** - Semi-urgent **UNK** - Unknown **URG** - Urgent
40	Referral Reason	referral_reason_code	XXX	Mandatory	The reason for why the referral is issued, as represented by a code. **ASS** - Assessment **CHR** - Chart Review **EDU** - Education **OPM** - Ongoing Patient Management **OTH** - Other **RET** - Research Trial **TRE** - Treatment/Intervention **UNK** - Unknown
41	Referral Source	referral_source_code	XXX	Mandatory	The source of the referral, as represented by a code. **AHP** - Allied Health Professional **ANI** - Another Institution **CLN** - Clinician **COM** - Community **CON** - Same Consultant **CTB** - Community Treatment Order Breach **CTV** - Community Treatment Order Variation **EDU** - Education Department **EMD** - Emergency Department **FAF** - Family or Friend

	Data Element	Field name	Type	Requirement	Comments
					GEP - General Practitioner **GOV** - Government Agency **INW** - Inpatient Ward **MCE** - Mental Health Emergency Response Line (MHERL) or Community Emergency Response Team (CERT) **MEP** - Medical Practitioner **MHC** - Mental Health Clinic or Team **NGO** - Non-government Organisation **NPR** - Nurse Practitioner **NSP** - Not Specified **NUR** - Nurse **OMH** - Other **OPH** - Outpatient Department this Hospital **OPR** - Other Professional **OTH** - Other Hospital **OTS** - Other Service **POL** - Police **PPS** - Private Psychiatrist **PRI** - Private Referral **PRN** - Private referral by General Practitioner **RCF** - Residential Care Facility **SLF** - Self **SPR** - Specialist Rooms **UNK** - Unknown
42	Referring Healthcare Provider Name	referring_hcp_name	[X(100)]	Optional	The name of the referring healthcare provider that requested the non-admitted service.
43	Referral Closed Date	referral_closed_date	[YYYY-MM-DD]	Conditional	Date on which the referral was closed. **Condition:** this will be blank until the referral is closed.
44	Referral Reason for Closure	referral_reason_closure_code	[XXX]	Conditional	Reason for the referral being closed, represented by a code **AUD** - Audit **DEC** - Deceased **DIP** - Discharge Policy **PDT** - Patient Declined Treatment **NSP** - Not Specified **TFC** - Transfer and Close **TRE** - Treatment Completed

	Data Element	Field name	Type	Requirement	Comments
					Condition if the referral has been closed, then this field is Mandatory otherwise leave blank.
45	Referral Created Date	referral_created_date	YYYY-MM-DD	Mandatory	The date on which the referral was created.
46	Referral Entered Date	referral_entered_date	YYYY-MM-DD	Mandatory	Date on which the referral was entered into the source patient administration system.
47	Referral Entered By	referral_entered_by	[X(10)]	Mandatory	The identifier of the staff member who entered the referral details into the source patient administration system. **Condition:** this data element should be provided if available in the source system, otherwise leave blank.
48	Referral Updated Date	referral_updated_date	YYYY-MM-DD	Conditional	The system date on which the referral is updated by the site. **Condition:** if the referral has been updated, then this field is Mandatory otherwise leave blank.
49	Appointment Account Number	appointment_account_number	X[X(29)]	Mandatory	An identifier in the source information system that distinguishes between related non-admitted services (e.g. appointment account number, event ID). This would be a unique number, either on its own or paired with the Establishment code.
50	Appointment Attendance	appointment_attendance_code	[XXX]	Mandatory	The nature of the patient's attendance at the appointment, as represented by a code. **ATT** - Attended **DNA** - Did Not Attend **DNW** - Did Not Wait **MCC** - Multidisciplinary Case Conference **NCE** - Non-client Event **NSP** - Not Specified **UNK** - Unknown **Condition:** this data element is used to determine a non admitted patient service event. The appointment attendance code is derived from the Appointment Outcome Code in WebPAS.
51	Appointment Status	appointment_status_code	XX	Mandatory	The status of the scheduled appointment record, as represented by a code.

	Data Element	Field name	Type	Requirement	Comments
					PR - Processed **PP** - Part processed **UN** - Unprocessed/Unknown **FU** - Future appointment **RS** - To be rescheduled **CA** - Cancelled appointment
52	Appointment First Offered Date	appointment_first_offered_date	[YYYY-MM-DD]	Conditional	The date of the first available appointment offered by a healthcare provider to a patient following the receipt of a service request. **Condition:** if the patient has been offered an initial appointment this is to be recorded.
53	Appointment Preferred Date	appointment_preferred_date	[YYYY-MM-DD]	Conditional	The date preferred by the patient for an appointment. **Condition:** this data element must be provided if available in the source system, otherwise leave blank.
54	Appointment Date	appointment_date	YYYY-MM-DD	Mandatory	The date on which the appointment occurred.
55	Appointment Time	appointment_time	HH:MM:SS	Mandatory	The time of the scheduled appointment.
56	Appointment Type	appointment_type_code	XXX	Mandatory	Whether the scheduled appointment is for a new problem not previously addressed at the same clinical service or for the follow-up of a problem that has been addressed at a previous appointment at the same clinical service, as represented by a code. **NEW** - New **FOL** - Follow-up **NCE** - Non-Client Event/Chart Only **OTH** - Other **UNK** - Unknown
57	Appointment Funding Source	appointment_funding_source_code	XXX	Conditional	Patient's principal funding or payment source for the service event, as represented by a code. **AHA** - Australian Health Care Agreement **COR** - Correctional Facility **REC** - Reciprocal Overseas **DET** - Detainee **Condition:** this data element is only reported by WebPAS

	Data Element	Field name	Type	Requirement	Comments
					and is used to refine the data element Payment Classification Code.
58	Appointment Payment Classification	appointment_pay_class_code	XXX	Mandatory	The expected principal source of funds for payment of the account for an appointment, as represented by a code. **ADF** - Australian Defence Force **AHA** - Australian Health Care Agreement **CIS** - Catastrophic Injury Support Scheme **COM** - Compensable Other **COR** - Correctional Facility **DET** - Detainee **EMV** - Other States Motor Vehicle Insurance Trust **FOD** - Foreign Defence **INE** - Ineligible **MBS** - Medicare Benefits Scheme **OTH** - Other **OVS** - Overseas Student **OVV** - Overseas Visitor **PVT** - Private Insured **REC** - Reciprocal Health Care Agreement **SHI** - Shipping **UNI** - Private Uninsured **UNK** - Unknown **VET** - Department of Veterans Affairs **WAM** - Western Australian Motor Vehicle Insurance Trust **WCC** - Workers Compensation
59	Appointment Session Type	appointment_session_type_code	XXX	Mandatory	This data element is used to determine a non-admitted patient service event when the session type is coded as IND (Individual), GRP (Group) or MCC (Multidisciplinary case conference). **GRP** - Group **IND** - Individual **MCC** - Multidisciplinary Case Conference **NCE** - Non-client event **UNK** - Unknown
60	Appointment Cancellation	appointment_cancellation_code	[XXX]	Conditional	The reason the scheduled appointment was cancelled as represented by a code. **BET** - States better

	Data Element	Field name	Type	Requirement	Comments
					CCA - Clinic cancelled **CLU** - Clinician unavailable **COH** - Crisis - Hospital **COP** - Crisis - Patient **COQ** - Crisis - Patient in Quarantine **CUR** - Current Inpatient any site **DEC** - Deceased **DNN** - No notification received **ERR** - User error **ISF** - Illness self or family **MOV** - Moved away **NCO** - Non contactable **NSP** - Not specified **OTH** - Treated other public hospital **PCO** - Patient convenience **PRI** - Treated privately **RES** - Test results unavailable **RFC** - Referral closed **TIA** - Treatment no longer appropriate **TRA** - Transport **UNK** - Unknown **URG** - Urgent patient **UTR** - Urgent test results **Condition:** This data element is conditional on the appointment being cancelled otherwise leave blank.
61	Appointment Client Type	appointment_client_type_code	XX	Mandatory	The type of patient at the time of the appointment, as represented by a code. **CC** - Continuing Care **ED** - Emergency Department **EX** - External **IP** - Inpatient **NS** - Not specified **OP** - Outpatient **PH** - Primary Health
62	Appointment Cancellation Date	appointment_cancellation_date	[YYYY-MM-DD]	Conditional	The date on which the scheduled appointment was cancelled.

	Data Element	Field name	Type	Requirement	Comments
					Condition: This data element is conditional on the appointment being cancelled otherwise leave blank.
63	Appointment Care Type	appointment_care_type_code	XXX	Mandatory	The type of care provided to the patient at the appointment as represented by a code. **ACU** - Acute **GER** - Geriatric Evaluation and Management **MEN** - Specialist Mental Health **NSP** - Not Specified **OTH** - Other **PAL** - Palliative **PSY** - Psychogeriatric **REH** - Rehabilitation **UNK** - Unknown
64	Appointment Delivery Mode	appointment_delivery_mode_code	XXX	Mandatory	The method of communication between a patient and a healthcare provider during the appointment, as represented by a code. **CLP** - Client Present (face to face) **ELE** - Electronic e.g. Email **GCP** - Group Client Present (face to face) **HOM** - Home Visit **MCC** - Multidisciplinary case conference - patient not present **OTH** - Other **POS** - Postal Service **SLF** - Self-administered Treatment **TEL** - Telephone **THC** - Telehealth support clinician **THH** - Telehealth at non WA Health site **THS** - Telehealth at WA Health site **UNK** - Unknown
65	Appointment Delivery Setting	appointment_delivery_set_code	X	Mandatory	The setting in which a service is provided to a patient during the appointment, as represented by a code. **Y** - On the hospital campus of the healthcare provider **N** - Off the hospital campus of the healthcare provider
66	Appointment Diagnosis Type 1	appointment_diagnosis_type_1	[X(10)]	Optional	A condition or complaint type in relation to the appointment event, represented by a code. **ICD9CMA** - ICD 9th Edition Canadian Modified (AU) **ICD10AM** - ICD 10th Edition Australian Modified **MDC** - Major Diagnostic Category

	Data Element	Field name	Type	Requirement	Comments
					HIC - Health Issue Code **Condition:** this data element should be provided if available in the source system, otherwise leave blank.
67	Appointment Diagnosis Code 1	appointment_diagnosis_code_1	[X(15)]	Optional	Any number of diagnoses, procedure codes or interventions collected relating to the patient's appointment, as represented by a code. **Condition:** this data element should be provided if available in the source system, otherwise leave blank.
68	Appointment Diagnosis Type 2	appointment_diagnosis_type_2	[X(10)]	Optional	A condition or complaint type in relation to the appointment event, represented by a code. **ICD9CMA** - ICD 9th Edition Canadian Modified (AU) **ICD10AM** - ICD 10th Edition Australian Modified **MDC** - Major Diagnostic Category **HIC** - Health Issue Code **Condition:** this data element should be provided if available in the source system, otherwise leave blank.
69	Appointment Diagnosis Code 2	appointment_diagnosis_code_2	[X(15)]	Optional	Any number of diagnoses, procedure codes or interventions collected relating to the patient's appointment, as represented by a code. **Condition:** this data element should be provided if available in the source system, otherwise leave blank.
70	Appointment Diagnosis Type 3	appointment_diagnosis_type_3	[X(10)]	Optional	A condition or complaint type in relation to the appointment event, as represented by a code. **ICD9CMA** - ICD 9th Edition Canadian Modified (AU) **ICD10AM** - ICD 10th Edition Australian Modified **MDC** - Major Diagnostic Category **HIC** - Health Issue Code **Condition:** this data element should be provided if available in the source system, otherwise leave blank.
71	Appointment Diagnosis Code 3	appointment_diagnosis_code_3	[X(15)]	Optional	Any number of diagnoses, procedure codes or interventions collected relating to the patient's appointment, as represented by a code. **Condition:** this data element should be provided if available in the source system, otherwise leave.

	Data Element	Field name	Type	Requirement	Comments
72	Appointment Diagnosis Type 4	appointment_diagnosis_type_4	[X(10)]	Optional	A condition or complaint type in relation to the appointment event, as represented by a code. **ICD9CMA** - ICD 9th Edition Canadian Modified (AU) **ICD10AM** - ICD 10th Edition Australian Modified **MDC** - Major Diagnostic Category **HIC** - Health Issue Code **Condition:** this data element should be provided if available in the source system, otherwise leave blank.
73	Appointment Diagnosis Code 4	appointment_diagnosis_code_4	[X(15)]	Optional	Any number of diagnoses, procedure codes or interventions collected relating to the patient's appointment, as represented by a code. **Condition:** this data element should be provided if available in the source system, otherwise leave blank.
74	Appointment Event Type	appointment_event_type	[X(50)]	Conditional	Further description of appointment type. **Admitted Patient** **Chart Review** **Continuing Care MPS** **Outpatient** **Primary Health** **Condition:** Only provided by WA Country Health Service (WACHS).
75	Appointment Healthcare Provider	appointment_hcp_code	[X(10)]	Conditional	The Healthcare Provider Code is an identifier allocated to the healthcare professional by the profession's registration body. AHPRA codes are to be reported - Australian Health Practitioner Regulation Agency - Register of practitioners **Condition:** If the healthcare provider has an AHPRA registration provider code then this field is mandatory.
76	Appointment Healthcare Provider Name	appointment_hcp_name	[X(100)]	Conditional	The name of the individual healthcare professional who provided care to the patient. **Condition:** this data element is to reflect the Healthcare Provider who delivered the service. A list of registered healthcare professionals by the registration body - AHPRA can be reported - Australian Health Practitioner Regulation Agency - Register of practitioners

	Data Element	Field name	Type	Requirement	Comments
77	Appointment Non-Attendance Reason	appointment_nonattend_reas_code	[XXX]	Conditional	The reason why the patient did not attend the appointment as represented by a code. **APE** - Inpatient or Outpatient Appointment Elsewhere **COH** - Crisis - Hospital **COP** - Crisis - Patient **COQ** - Crisis – Patient in Quarantine **DEC** - Deceased **DRN** - Patient Did not Receive Notification **FGT** - Forgot **GNR** - Gives No Reason **ISF** - Illness Self or Family **PDA** - Patient Did Not Attend **SBE** - States Better **TPR** - Treated Privately **TRU** - Transport Unavailable **Condition:** if the appointment was not attended then this data element is Mandatory otherwise leave blank.
78	Appointment Outcome	appointment_outcome_code	XXX	Mandatory	The outcome of the appointment, as represented by a code. This field is used to derive the appointment attendance code in WebPAS. **ADM -** Admit to Ward **ARV -** Arrived **CAN -** Cancelled **CON -** Chart Only **COU -** Counselling of relatives **DEC -** Deceased in Clinic **DIE -** Deceased **DIS -** Discharge From Clinic **NSP -** Not Specified **PAE -** Patient Arrived in Error **PAL -** Patient Late Not Seen **PDA -** Patient Did Not Attend **PLN -** Patient Left Not Seen **PRI -** Private Referral **RAS -** Refer Another Specialty **REA -** Reappoint **RED -** Refer to ED **REV -** Further Review **RGP -** Referred back to GP

	Data Element	Field name	Type	Requirement	Comments
					ROH - Refer Other Hospital **RTW -** Return To Ward **RWL** - Refer Inpatient Waitlist **UNK** - Unknown
79	Appointment Patient Arrival Time	appointment_client_arrival_time	[HH:MM:SS]	Conditional	The time when the patient arrived for the appointment. **Condition:** If the patient arrived for their appointment, then this data element must be provided, otherwise leave blank.
80	Appointment Patient Seen Time	appointment_client_seen_time	[HH:MM:SS]	Conditional	The actual time when the patient was seen by a healthcare provider for their appointment. **Condition:** if the patient was seen for their appointment, then this data element must be provided, otherwise leave blank.
81	Appointment Program	appointment_program_code	[XXX]	Conditional	A code to identify the type of service or program that is being delivered. **BRE** - Breast Services **CNC** - Community Nursing Care **CHD** - Child Development **CPH** - Community Physio Service **CRE** - Community Rehabilitation **DAE** - Diabetes Education **DIS** - Disability **DTU** - Day Therapy Unit **EME** - Emergency Department **FDV** - Family and Domestic Violence **HAE** - Haematology **HNV** - Health Navigator **ICS** - Integrated Cancer Service **MED** - Medical **NAP** - Not Applicable **NDS** - National Disability Insurance Scheme Registered **NSP** - Not specified **ONC** - Oncology **PAL** - Palliative Care **PAR** - Post-Admission Rehabilitation **PRI** - Private **REM** - Renal Medicine **SCL** - Stroke Clinic

	Data Element	Field name	Type	Requirement	Comments
					SCO - Stroke Community **SUR** - Surgical **TRC** - True Care True Culture **VGE** - Visiting geriatrician **VGS** - Visiting geriatrician support service **Condition:** not all feeder systems will be able to provide this field, if available in the source system then this field is Mandatory.
82	Appointment Reason for Reschedule	appointment_reschedule_reas_code	[XXX]	Conditional	The reason why the scheduled appointment was rescheduled. **CLC** - Crisis - Legislative Changes **CLU** - Clinician Unavailable **COH** - Crisis - Hospital **COP** - Crisis - Patient **COQ** - Crisis - Patient in Quarantine **DRN** - Did Not Receive Notification **EIA** - External Industrial Action **ERR** - Operator Error **EXE** - Executive Decision **IIA** - Internal Industrial Action **INP** - Current Inpatient any site **INU** - Interpreter Unavailable **ISF** - Illness Self or Family **NSP** - Not Specified **PTC** - Patient Convenience **RUN** - Rooms Unavailable **SLC** - Slot Change **STE** - Student Exams **TRU** - Test Results Unavailable **TUN** - Transport Unavailable **URG** - Urgent Patient **UTR** - Urgent Test Results **Condition:** if the appointment was rescheduled then this data element is Mandatory otherwise leave blank.
83	Appointment Reschedule Count	appointment_reschedule_count	[NNNN]	Conditional	The number of times an appointment has been rescheduled. **Condition:** if the appointment has been rescheduled then this data element is Mandatory otherwise leave blank.

	Data Element	Field name	Type	Requirement	Comments
84	Appointment Processing Status	appointment_processing_status	[(X50)]	Conditional	The description of the status of the scheduled appointment record as represented by text. **Attended** **Blank** **Booked** **Cancelled** **Did Not Attend** **Rescheduled** **Condition:** this field is used to derive Appointment Attendance Code in WebPAS.
85	Appointment Update Date	appointment_update_date	YYYY-MM-DD HH:MM:SS	Conditional	The date/time an appointment is updated prior to the attended appointment. **Condition:** this data element is conditional if the appointment was subsequently updated from the original appointment date, otherwise leave blank.
86	Clinic Category	clinic_category_code	XXX[X]	Mandatory	Clinic category based on the WebPAS three-character category codes. Appendix D – Reference Codes and Description.
87	Clinic Identifier	clinic_identifier	X[X(7)]	Mandatory	A unique identifier for the clinic through which health care was provided to a non-admitted patient in a non-admitted setting. This identifier is assigned by the source information system in the preferred format.
88	Clinic Multidisciplinary Flag	clinic_multidisciplinary_code	X	Mandatory	A yes/no value indicating whether the appointment occurred in a multidisciplinary clinic. **N** - No **Y** - Yes **U** - Unknown
89	Clinic NMDS Tier 1	clinic_nmds_tier1_code	X(7)	Mandatory	The clinic type to be selected from the NMDS Tier 1 clinic list, as represented by a code. For the complete list of permitted values:- Meteor NMDS Tier 1 code list
90	Clinic Tier 2 Classification	clinic_tier2_code	NN.NN	Mandatory	The Tier 2 clinic type that is assigned to a clinic at the time of registration, as represented by a code. The clinic type is to be

	Data Element	Field name	Type	Requirement	Comments
					selected from the IHACPA Tier 2 clinic list. IHACPA Tier 2 code list
91	Clinic Tier 2 Classification Code Opened Date	clinic_tier2_code_date_opened	[YYYY-MM-DD]	Optional	The date on which the Tier 2 clinic type opened or updated for use.
92	Clinic Title	clinic_title	X[X(49)]	Mandatory	The descriptive title of the clinic as identified in the source information system.
93	Clinic Healthcare Provider	clinic_hcp_code	X(6)	Conditional	The Healthcare Provider Code is an identifier allocated to the healthcare professional by the profession's registration body. AHPRA codes are to be reported - Australian Health Practitioner Regulation Agency - Register of practitioners **Condition:** if the healthcare provider has an AHPRA registration provider code then this field is mandatory.
94	Clinic Healthcare Provider Name	clinic_hcp_name	X(50)	Conditional	The name of the individual healthcare provider who provided care to the patient. **Condition:** this data element is to reflect the Healthcare Provider who delivered the service. A list of registered healthcare professionals by the registration body - AHPRA can be reported - Australian Health Practitioner Regulation Agency - Register of practitioners
95	Clinic Site	clinic_site_code	[X(6)]	Optional	The clinic site allocated to hospitals and other health related locations or establishments by the Department of Health WA as represented by a code.
96	Patient with Cancer - Ready for Care Date	cancer_ready_for_care_date	[YYYY-MM-DD]	Conditional	The date, in the opinion of the treating healthcare provider, on which a patient is ready to commence treatment. **Condition:** if the patient has a diagnosis, then this field is Mandatory otherwise leave blank.
97	Patient with Cancer - Ready for Care	cancer_ready_for_care_code	[XXX]	Conditional	The ready for care status as represented by a code. May be mandatory for specific purposes. **DEF** - Deferred **OTH** - Other **RFC** - Ready For care **STG** - Staged

	Data Element	Field name	Type	Requirement	Comments
					UNK - Unknown **Condition:** if the patient has a diagnosis, then this field is Mandatory otherwise leave blank.
98	Patient with Cancer - Clinical Emergency Indicator	cancer_clinical_emergency_code	[X]	Conditional	An indicator for whether the treatment required for the patient is clinically assessed as an emergency. **N** - No the treating healthcare provider has assessed the waiting time for treatment can exceed 24 hours. **Y** - Yes the treating healthcare provider has assessed the waiting time for treatment cannot exceed 24 hours. **UNK** - Unknown **Condition:** if the patient has a diagnosis, then this field is Mandatory otherwise leave blank.
99	Patient with Cancer - Intention of Treatment	cancer_treatment_intention_code	[XXX]	Conditional	The reason why treatment is provided to a patient, as represented by a code. **CUR** - Curative - treatment is given for control of the disease. **OTH** - Other – this code is used when an alternative option is necessary. **PAL** - Palliative - treatment is given primarily for the purpose of pain control. Other benefits of the treatment are considered secondary contributions to quality of life. **PRO** - Prophylactic - treatment to prevent the occurrence or spread of disease. **UNK** - Unknown **Condition:** if the patient has a diagnosis, then this field is mandatory otherwise leave blank.
100	Patient with Cancer - Radiotherapy Start Date	cancer_radiotherapy_start_date	[YYYY-MM-DD]	Conditional	The date on which radiotherapy treatment started. **Condition:** if the patient has a diagnosis then this field is Mandatory otherwise leave blank.
101	Patient with Cancer - Primary Site of Cancer	cancer_primary_site_of_cancer	[X(15)]	Conditional	The site of origin of the tumour, as opposed to the secondary or metastatic sites, as represented by an ICD-10-AM code. **Condition:** if the patient has a diagnosis then this field is Mandatory otherwise leave blank.
102	Community Client SLK	comm_client_slk	[X(15)]	Conditional	Statistical linkage key identifier. **Condition:** if the source system is Silver Chain, then this data element is mandatory otherwise leave blank.

	Data Element	Field name	Type	Requirement	Comments
103	Community Service	comm_service_code	[XXXX]	Conditional	The type of service provided as represented by a code. **CNU** - Community Nursing **HATH** - Hospital at the Home **PRA** - Priority Response Assessment **HC** - Hospice Care **PA** - Post Acute Care **BC** - Bereavement **HNAV** - Health Navigator **O2** - Respiratory **PAR** - Palliative Respite **Condition:** if the source system is Silver Chain, then this data element is mandatory otherwise leave blank.
104	Community Place of Care	comm_place_of_care_code	[XXXX]	Conditional	The place where palliative care was provided, as represented by a code. **COMM** - Community **RACF** - Residential Aged Care Facility **Condition:** if the source system is Silver Chain, then this data element is mandatory otherwise leave blank.
105	Community Phase of Care	comm_phase_of_care_code	[XXXX]	Conditional	The phase of palliative care, as represented by a code. **ACT** - Active **INACT** - Inactive **BV** - Bereavement **Condition:** if the source system is Silver Chain, then this data element is mandatory otherwise leave blank.
106	Community Place of Death	comm_place_of_death_code	[XXXX]	Conditional	The place of death as represented by a code. **HM** - Home **HOS** - Hospital **HOSP** - Hospice **OTHR** - Other **RCF** - Residential Care Facility **Condition:** if the source system is Silver Chain, then this data element is mandatory otherwise leave blank.
107	Community Desired Place of Death 1st Assessment	comm_1st_asst_desired_pod_code	X(4)	Conditional	The desired place of death nominated by the patient at their first assessment, as represented by a code. **HM** - Home

	Data Element	Field name	Type	Requirement	Comments
					HOS - Hospital **HOSP** - Hospice **OTHR** - Other **RCF** - Residential Care Facility **Condition:** if the source system is Silver Chain, then this is data element is Mandatory otherwise leave blank.
108	Community Desired Place of Death	comm_desired_place_of_death_code	[XXXX]	Conditional	The subsequent desired place of death nominated by the patient, as represented by a code. **HM** - Home **HOS** - Hospital **HOSP** - Hospice **OTHR** - Other **RCF** - Residential Care Facility **Condition:** if the source system is Silver Chain, then this data element is mandatory otherwise leave blank.
109	Community Service Received	comm_service_received_code	[XXXX]	Conditional	The service received by the patient, represented by a code. **AHF** - Allied Health face-to-face **AHS** - Allied Health support **CA** - Care Aide **CDR** - Coordinator **CM** - Clinical meetings **CNCM** - Clinical Nurse Consultant Manager **CNF** - Counselling face-to-face **CNS** - Counselling support **CODR** - Consultant Doctor **CON** - Coordinator - Nurse **DE** - Diabetes Educator **DR** - Doctor **HNAV** - Health Navigator **IHN** - In-home Nursing **NCC** - Nurse client coordination **NP** - Nurse Practitioner **NS** - Nursing support **OT** - Occupational Therapist **PC** - Personal Care **RN** - Registered Nurse **SAHC** - Senior Allied Health Practitioner

	Data Element	Field name	Type	Requirement	Comments
					SOC - Social Worker **VOLC** - Volunteer Coordinator **Condition:** if the source system is Silver Chain, then this is data element is Mandatory otherwise leave blank.
110	Community Duration	comm_duration	[N(8)]	Conditional	Duration, in minutes, of the non-admitted service. **Condition:** if the source system is Silver Chain, then this is data element is Mandatory otherwise leave blank.
111	Community Travel Time	comm_travel_time	[N(8)]	Conditional	The travel time, in minutes, associated with the appointment. The time taken for the healthcare provider to travel from the previous client's location to the current client's location. **Condition:** if the source system is Silver Chain, then this is data element is Mandatory otherwise leave blank.
112	Record Type	record_type	XXX	Mandatory	The Record Type is used during the load process. **REF** - Referral **APP** - Appointment **RES** - Reschedule **CAN** - Cancellation
113	System Extracted Date	system_extracted_datetime	YYYY-MM-DD HH:MM:SS	Mandatory	The system date on which the patient appointment information was extracted from the source patient administration system.
114	System Updated Date	system_updated_datetime	YYYY-MM-DD HH:MM:SS	Conditional	The system date on which the record was updated. If any data item relating to a patient's appointment or referral record is updated this field is expected to be updated. **Condition:** if the record has been updated then this field is Mandatory, otherwise leave blank.
115	System Record Identifier	system_record_identifier	[X(20)]	Optional	A unique information system generated record identifier or key. This identifier will be used to ensure correct updates to existing records, identify duplicates and add unknown records from information system extracts.

Appendix C – Non-Admitted Data Collection – Data entry and edits schedule for 2024-25

Activity occurring in	Data entry and edits due date *When activity is submitted to NADC, data validation issues identified on the Data Quality Dashboard must be corrected by this date.*	National submission quarter	National data submitted in

Appendix D – Reference Codes and Description

Field name	Code	Description
aboriginal_status_code	1	Aboriginal but not Torres Strait Islander origin
aboriginal_status_code	2	Torres Strait Islander but not Aboriginal origin
aboriginal_status_code	3	Both Aboriginal and Torres Strait Islander origin
aboriginal_status_code	4	Neither Aboriginal nor Torres Strait Islander origin
aboriginal_status_code	9	Not stated/Inadequately described
appointment_attendance_code	ATT	Attended
appointment_attendance_code	DNA	Did Not Attend
appointment_attendance_code	DNW	Did Not Wait
appointment_attendance_code	MCC	Multidisciplinary Case Conference
appointment_attendance_code	NCE	Non-client Event
appointment_attendance_code	NSP	Not Specified
appointment_attendance_code	UNK	Unknown
appointment_cancellation_code	BET	States better
appointment_cancellation_code	CCA	Clinic cancelled
appointment_cancellation_code	CLU	Clinician unavailable
appointment_cancellation_code	COH	Crisis - Hospital
appointment_cancellation_code	COP	Crisis - Patient
appointment_cancellation_code	COQ	Crisis - Patient In Quarantine
appointment_cancellation_code	CUR	Current Inpatient any site
appointment_cancellation_code	DEC	Deceased
appointment_cancellation_code	DNN	No notification received
appointment_cancellation_code	ERR	User error
appointment_cancellation_code	ISF	Illness self or family
appointment_cancellation_code	MOV	Moved away
appointment_cancellation_code	NCO	Non contactable
appointment_cancellation_code	NSP	Not specified
appointment_cancellation_code	OTH	Treated other public hospital
appointment_cancellation_code	PCO	Patient convenience
appointment_cancellation_code	PRI	Treated privately
appointment_cancellation_code	RES	Test results unavailable
appointment_cancellation_code	RFC	Referral closed
appointment_cancellation_code	TIA	Treatment no longer appropriate
appointment_cancellation_code	TRA	Transport unavailable
appointment_cancellation_code	UNK	Unknown
appointment_cancellation_code	URG	Urgent patient
appointment_cancellation_code	UTR	Urgent test results
appointment_care_type_code	ACU	Acute
appointment_care_type_code	GER	Geriatric Evaluation and Management
appointment_care_type_code	MEN	Specialist Mental Health
appointment_care_type_code	NSP	Not Specified
appointment_care_type_code	OTH	Other
appointment_care_type_code	PAL	Palliative
appointment_care_type_code	PSY	Psychogeriatric

Field name	Code	Description
appointment_care_type_code	REH	Rehabilitation
appointment_care_type_code	UNK	Unknown
appointment_client_type_code	CC	Continuing Care
appointment_client_type_code	ED	Emergency Department
appointment_client_type_code	EX	External
appointment_client_type_code	IP	Inpatient
appointment_client_type_code	NS	Not Specified
appointment_client_type_code	OP	Outpatient
appointment_client_type_code	PH	Primary Health
appointment_delivery_mode_code	CLP	Client Present
appointment_delivery_mode_code	ELE	Electronic (e.g. Email, SMS)
appointment_delivery_mode_code	GCP	Group Client Present
appointment_delivery_mode_code	HOM	Home Visit
appointment_delivery_mode_code	MCC	Multidisciplinary Case Conference - patient not present
appointment_delivery_mode_code	OTH	Other
appointment_delivery_mode_code	POS	Postal Service
appointment_delivery_mode_code	SLF	Self-administered Treatment
appointment_delivery_mode_code	TEL	Telephone
appointment_delivery_mode_code	THC	Telehealth Support Clinician
appointment_delivery_mode_code	THH	Telehealth at non-WA Health Site
appointment_delivery_mode_code	THS	Telehealth at WA Health Site
appointment_delivery_mode_code	UNK	Unknown
appointment_delivery_mode_code	VID	Video Conference
appointment_delivery_set_code	Y	On the hospital campus of the healthcare provider
appointment_delivery_set_code	N	Off the hospital campus of the healthcare provider
appointment_funding_source_code	AHA	Australian Health Care Agreement
appointment_funding_source_code	COR	Correctional Facility
appointment_funding_source_code	REC	Reciprocal Overseas
appointment_funding_source_code	DET	Detainee
appointment_nonattend_reas_code	APE	Inpatient or Outpatient Appointment Elsewhere
appointment_nonattend_reas_code	COH	Crisis - Hospital
appointment_nonattend_reas_code	COP	Crisis - Patient
appointment_nonattend_reas_code	COQ	Crisis - Patient In Quarantine
appointment_nonattend_reas_code	DEC	Deceased
appointment_nonattend_reas_code	DRN	Did not Receive Notification
appointment_nonattend_reas_code	FGT	Forgot
appointment_nonattend_reas_code	GNR	Gives No Reason
appointment_nonattend_reas_code	ISF	Illness Self or Family
appointment_nonattend_reas_code	PDA	Patient Did Not Attend
appointment_nonattend_reas_code	SBE	States Better
appointment_nonattend_reas_code	TPR	Treated Privately
appointment_nonattend_reas_code	TRU	Transport Unavailable
appointment_pay_class_code	ADF	Australian Defence Force
appointment_pay_class_code	AHA	Australian Health Care Agreement

Field name	Code	Description
appointment_pay_class_code	CIS	Catastrophic Injury Support Scheme
appointment_pay_class_code	COM	Compensable Other
appointment_pay_class_code	COR	Correctional Facility
appointment_pay_class_code	DET	Detainee
appointment_pay_class_code	EMV	Other States Motor Vehicle Insurance Trust
appointment_pay_class_code	FOD	Foreign Defence
