Department of Health and Aged Care

National CQR Program jurisdiction report – November 24

Western Australia

Introduction

The Australian government is leading a new [National Clinical Quality Registry Program](#) (the Program). The purpose of the Program is to improve the quality of health care and ensure better health outcomes for Australian patients. It is designed to reflect the key priorities of the [National Clinical Quality Registry and Virtual Strategy 2020-2030](#).

The Program currently funds 12 national CQRs. This report provides a summary of Western Australia's participation in each of these registries. It also includes information on current registry outputs and how to access the data.

Summary

The following National CQR Program funded registries have a presence in Western Australia:

CQR	WA sites	National sites
Australasian Pelvic Floor Procedure Registry	3	51
Australasian Shunt Registry	4	56
Australian and New Zealand Hip Fracture Registry	7	82
Australian and New Zealand Intensive Care Registry	13	189
Australian and New Zealand Trauma Registry	2	26
Australian Breast Device Registry	23	309
Australian Cystic Fibrosis Data Registry	2	22
Australian Dementia Network Registry	1	59
Australian Diabetes Clinical Quality Registry	1	25
Australian Spine Registry	0	19
Australian Stroke Clinical Registry	6	66
Bariatric Surgery Registry	11	153
National Cardiac Registry	3	60

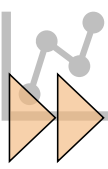

*Note: the BSR is not a Program funded registry, but is a Commonwealth funded registry managed alongside the Program.

Further details on each Program funded registry are outlined below.

A full list of Program funded registries that each Western Australia site is contributing to is included at **Attachment A**.
