Chief Health Officer advice

The latest advice from the Chief Health Officer is available [here](#).

- [27 May 2021](#) – **Controlled border controls – Victoria**
- [25 May 2021](#) – Controlled border controls in Western Australia

WA introduces hard border with Victoria

Victoria has transitioned from 'very low risk' to 'medium risk' under WA's controlled interstate border, effective from 10.00am, Thursday, 27 May 2021.

Travel from Victoria into WA will no longer be permitted, with exemptions for the following:

- certain senior Government officials
- certain active military personnel
- a member of the Commonwealth Parliament
- a person carrying out functions under a law of the Commonwealth
- a person responsible for transport freight or logistics
- anyone who is given approval by the State Emergency Coordinator or an authorised officer.

These people will be assessed on a case-by-case basis by WA Police and will be required to complete 14 days of self-quarantine and be tested for COVID-19 on arrival and on day 11.

The following applies:

Exempt travellers arriving into WA from 10.00am Thursday, 27 May 2021:

- Get a COVID-19 test upon arrival into WA and on day 11.
- Self-quarantine in a suitable premises for 14 days.

Arrivals who have visited Victorian [exposure sites](#) during relevant times, irrespective of whether the exposure site is considered Tier 1 or Tier 2 by Victoria Health:

- Get tested immediately for COVID-19 and self-quarantine for 14 days from date of exposure.
- Get a COVID-19 test on day two and day 11 of your 14-day self-quarantine.
- Masks must be worn when leaving self-quarantine premises to present for testing.

For anyone who has come into contact with someone who recently arrived from Victoria, self-quarantine is not necessary and COVID-19 testing is only required if symptoms develop.

The announcement is available [here](#).

Jurisdiction risk rating

Victoria is now considered 'medium risk'. All other jurisdictions, including New Zealand, are considered 'very low risk'.

For more information on Western Australia's border arrangement, see the WA Government's controlled interstate border [webpage](#).

COVID-19 vaccination program

Requests for alternative COVID-19 vaccine

In accordance with the guidance from Australian Technical Advisory Group on Immunisation (ATAGI) and the Thrombosis and Haemostasis society of Australia and New Zealand (THANZ) , WA Health has established a process to allow individuals over 50 years old, who meet the qualifying medical conditions, to [request](#) an alternative COVID-19 vaccine.

Individuals will need a letter, in electronic format, from their GP or treating specialist outlining which of the criteria applies to them. Once this letter has been obtained, the request for alternative COVID-19 vaccination [form](#) for persons aged 50 years and over needs to be completed online.

ATAGI update

ATAGI and THANZ have released a joint [statement](#) on Thrombosis with Thrombocytopenia Syndrome (TTS) and the use of COVID-19 Vaccine AstraZeneca.

This advice highlights that the list of conditions for which Pfizer ([Comirnaty](#)) is the preferred vaccine has been expanded to include a history of: cerebral venous sinus thrombosis (CVST), heparin-induced thrombocytopenia (HIT), idiopathic splanchnic (mesenteric, portal and splenic) venous thrombosis and anti-phospholipid syndrome with thrombosis. A full list of the conditions that are not likely to increase the risk of TTS is provided in the joint [statement](#); people in these groups can receive the [AstraZeneca](#) vaccine.

The Australian Department of Health has released new talking points on the AstraZeneca vaccine for health professionals – [Talking to patients](#) about AstraZeneca vaccine.

New online COVID-19 vaccination booking system

A new online COVID-19 vaccination booking system opened for appointments on 25 May 2021. The VaccinateWA booking system can be accessed at [Roll up for WA](#), and provides a user-friendly process for booking and confirming vaccination appointments at WA Health run community and hospital-based vaccination clinics in WA. Some clinics are available for both Pfizer (Comirnaty) and AstraZeneca vaccines.

Adults with chronic medical conditions and people with disability are now eligible to receive the COVID-19 vaccine and can book via [Roll up for WA](#). Eligible people aged under 50 years have

access to the Pfizer (Comirnaty) vaccine, whilst those aged 50 years and over can access the AstraZeneca vaccine.

Adults aged 50 and over across both metropolitan and regional WA continue to be provided with a range of options to access the AstraZeneca vaccine, with available clinics listed on the [HealthyWA website](#). Eligible people can call 13COVID (13 26843) to book an appointment at both metropolitan and regional locations.

Eligible people are also able to access COVID-19 vaccinations through participating GP, GP Respiratory Clinics or Aboriginal Medical Services (AMS). Visit the COVID-19 Vaccine [Eligibility Checker](#) to check on availability in your location.

Testing locations

Testing locations are listed on [HealthyWA](#).

Reporting

Notify suspected COVID-19 cases by completing the notification form either [ONLINE](#) or by printing out the notification form.

Series of National Guidelines (SoNG)

The [latest](#) iteration was released on 26 May 2021.

Australian Health Protection Principal Committee (AHPPC)

The [Australian Health Protection Principal Committee \(AHPPC\)](#) is the key decision-making committee for health emergencies. It is comprised of all state and territory Chief Health Officers and is chaired by the Australian Chief Medical Officer. The AHPPC has an ongoing role to advise the Australian Health Ministers' Advisory Council (AHMAC) on health protection matters and national priorities. AHPPC is also tasked with the role of mitigating emerging health threats related to infectious diseases, the environment as well as natural and human made disasters.
