Reporting an Oversupplied Person

The Medicines and Poisons Act 2014 requires that an authorised health professional must make a report to the Department of Health, within 48 hours, when they have reason to believe that a person is oversupplied. Oversupplied person refers to a person who has over a period of time obtained, or obtained prescriptions for, quantities of drugs of addiction (Schedule 8 medicines and/or Schedule 4 medicines monitored by ScriptCheckWA) that are greater than is reasonably necessary for therapeutic use. The Department of Health does not disclose the source of reports.

5. Patient acknowledgement (optional)

I am aware that my health practitioner must provide my name and related information included in this form to the Department of Health as I have been assessed as meeting the criteria for inclusion on the Drugs of Addiction Record (the Record). I am aware that the information relating to me on the Record will only be provided to my treating health practitioner(s) to assist with my medical treatment with drugs of addiction. I am aware that, before a drug of addiction is prescribed for me, my prescribing health practitioner must seek prior approval from the Department to do so. This will not affect my access to emergency treatment with these medicines.
