## Abbreviations

AN-SNAP	Australian National Subacute and Non-acute Patient
AOS	AROC Online Services
AROC	Australasian Rehabilitation Outcomes Centre
ePaICIS	Electronic Palliative Care Information System
FIM	Functional Independence Measure
FRIC	Frailty Related Index of Comorbidities
GEM	Geriatric Evaluation and Management
HMDS	Hospital Morbidity Data System
HoNOS	Health of the Nation Outcome Scales
ICT	Information and Communications Technology
IHACPA	Independent Health and Aged Care Pricing Authority
PAS	Patient Administration System
PSOLIS	Psychiatric Services On-line Information System
RUG-ADL	Resource Utilisation Groups - Activities of Daily Living
SANA	Subacute and Non-acute
SANADC	Subacute and Non-acute Data Collection
SMMSE	Standardised Mini-Mental State Examination
UMRN	Unit Medical Record Number
WA	Western Australia
webPAS	Web-based Patient Administration System

No Longer Applicable. July 2026.

# 1. Purpose

The purpose of the *Subacute and Non-acute Data Collection Data Specifications* is to outline the requirements for WA Health and Contracted Health Entities to report subacute and non-acute patient activity to the Department of Health, as the System Manager.

*Subacute and Non-acute Data Collection Data Specifications* is a Related Document mandated under [MP 0164/21 Patient Activity Data Policy](#).

These data specifications are to be read in conjunction with this policy and other Related Documents and Supporting Information as follows:

- [Admitted Patient Activity Data Business Rules](#)
- [Subacute and Non-acute Data Collection Data Dictionary](#)
- [Patient Activity Data Policy Information Compendium](#).

# 2. Background

Subacute and non-acute (SANA) patient activity data must be recorded in approved Patient Administration Systems (PAS) in an accurate and timely manner so that the data are available and can be accessed for inclusion into the Subacute and Non-acute Data Collection (SANADC).

The SANADC includes data collected routinely during admitted SANA episodes, but also captures additional clinical information that varies according to the episode care type.

For reliability purposes, all demographic, admission, discharge and morbidity information for SANA episodes are sourced directly from the Hospital Morbidity Data System (HMDS) after they have been through the HMDS data quality cycle.

To enable the coding of SANA episodes to the Australian National Subacute and Non-acute Patient (AN-SNAP) classification, sites are required to submit additional clinical assessment data items for each episode of care. As per the table below, the additional data items required depends on the age of the patient and the care type, with all data items to be collected on admission.

Care type	EM <sup>11</sup> scores	FRIC score	HoNOS 65+ scores	Impairment code	SMMSE	RUG-ADL scores	Phase(s) of care
<b>Adult episodes</b>							
Rehabilitation	✓			✓			
GEM	✓	✓ **			✓ *		
Psychogeriatric			✓				
Palliative						✓	✓
Non-acute / Maintenance		✓ **					
<b>Paediatric episodes</b>							
Rehabilitation				✓			
Palliative							✓

\* In WA the SMMSE is not always administered for GEM patients. If an SMMSE has been performed, the SMMSE scores should be recorded and submitted.

\*\* AN-SNAP version 5.0 incorporated FRIC scores in the classification of Non-acute and GEM Episodes. As such, these scores are calculated using ICD-10-AM coding of the patient's diagnosis.

### 3. Contact details requirements

Data providers must complete the contact details form (Appendix A) and provide contact details for two people who can be contacted in the event of data submission queries or issues:

- ICT technical contact – for data load/extract issues
- Information management contact – for data queries

### 4. Submission of data

Data must be submitted to the SANADC in accordance with the data submission schedule ([Section 5](#)) and data element listing ([Section 6](#)) outlined below, unless otherwise agreed to with the SANADC Custodian.

Files must be submitted in accordance with the SANA data file structure (Appendix B).

### 5. Data submission schedule

Data must be made available for the relevant reporting period as per the schedule set below:

PAS	Reporting Period	Provided to SANADC	Notes
webPAS	Monday - Sunday	Monday, 1am	All care types
AOS	Monday - Sunday	Monday, 1am	Rehabilitation
PSOLIS	Monday - Sunday	Monday, 1am	Psychogeriatric
ePalCIS	Monday - Sunday	Monday, 1am	Palliative

Data providers that use an alternate information system are required to submit data monthly or on request by the Department in an electronic format that is compliant with these specifications and the [Subacute and Non-acute Data Collection Data Dictionary](#).

### 6. Data element listing

Data providers must ensure that data is made available as per the specifications in the following appendices:

- Appendix C – Rehabilitation data elements
- Appendix D – GEM data elements
- Appendix E – Psychogeriatric data elements
- Appendix F – Palliative data elements
- Appendix G – Maintenance/Non-acute data elements

## 7. Data quality and validation correction process

Data providers are responsible for the quality of data provided. The Quality and Assurance Team at the Department of Health undertake data quality validations to ensure that data is compliant with reporting specifications, and the five data quality principles:

- relevance
- accuracy
- timeliness
- coherence
- interpretability

Data validation and errors are distributed to the reporting hospital via dashboards, spreadsheets or ad hoc communication.

It is the responsibility of health care providers, administrative, clinical coding and clerical staff to complete and correct data validations in the relevant clinical information system/s within required timeframes, as communicated by the Department of Health as the System Manager.

Examples of data quality validations may include, but are not limited to the following:

- patient demographics
- reporting of blank or incorrect values. For example, a patient's assessment dates documented as occurring outside that patient's admission and separation dates.
- availability of sufficient information to enable reporting to the Independent Health and Aged Care Pricing Authority (IHACPA).

No Longer Applicable  
Superseded 1 July 2026

## 8. Glossary

The following definition(s) are relevant to this document.

Term	Definition
Contracted Health Entity	As per section 6 of the <i>Health Services Act 2016</i> , a non-government entity that provides health services under a contract or other agreement entered into with the Department Chief Executive Officer on behalf of the State, a Health Service Provider or the Minister
Custodian	A custodian manages the day-to-day operations of the information asset(s) and implements policy on behalf of the Steward and Sponsor.
Data Collection	Refer to Information Asset
Data Specifications	Data Specifications mandate the list of data elements, format and submission schedule for each information asset.
Frailty Related Index of Comorbidities (FRIC)	A proxy measure of frailty derived from a patient's diagnosis (using ICD-10-AM diagnoses codes) which is used to classify geriatric evaluation and management care and non-acute care. It is not a clinical measure of frailty but a reliable predictor of the costs associated with healthcare.
Health Service Provider	A Health Service Provider established by an order under section 32(1)(b) of the <i>Health Services Act 2016</i> and includes North Metropolitan Health Service, South Metropolitan Health Service, Child and Adolescent Health Service, WA Country Health Service, East Metropolitan Health Service, PathWest Medicine WA, Quadriplegic Centre and Health Support Services.
Information asset	A collection of information that is recognised as having value for the purpose of enabling the WA health system to perform its clinical and business functions, which include supporting processes, information flows, reporting and analytics.
Information Management Policy Framework	The Information Management Policy Framework specifies the information management requirements that all WA Health entities must comply with in order to ensure effective and consistent management of health, personal and business information across the WA health system.
Patient Activity Data Business Rules	Patient Activity Data Business Rules mandate the rules, scope and criteria to be used when recording health service patient activity data and reporting to the Department of Health, as the System Manager.
Palliative Phase of Care	The palliative phase of care identifies a clinically meaningful period in a patient's condition. The palliative phase of care is determined by a holistic clinical assessment which considers the needs of the patients and their family and carers.

Term	Definition
System Manager	The term used for the Department CEO to reflect their role as being responsible for the overall management of the WA health system pursuant to section 19 of the <i>Health Services Act 2016</i> .
WA Health entities	<p>WA health entities include:</p> <p>(a) Health Service Providers as established by an order made under section 32(1)(b) of the <i>Health Services Act 2016</i>.</p> <p>(b) Department of Health as an administrative division of the State of Western Australia pursuant to section 35 of the <i>Public Sector Management Act 1994</i>.</p>
WA Health system	<p>The WA health system is comprised of:</p> <p>(i) the Department of Health;</p> <p>(ii) Health Service Providers (North Metropolitan Health Service, South Metropolitan Health Service, Child and Adolescent Health Service, WA Country Health Service, East Metropolitan Health Service, PathWest Laboratory Medicine WA, Quadriplegic Centre and Health Support Services); and</p> <p>(iii) contracted health entities, to the extent they provide health services to the State.</p>

## Appendix B – SANA data file structure

Subacute care in this data file is identified as admitted episodes in rehabilitation care, geriatric evaluation and management care, psychogeriatric care and palliative care.

Non-acute care in this data file is identified as admitted episodes in maintenance care.

The submission file is to be provided in .csv format.

Data included in Item 1 to Item 18 below is dependent on the care type of the episode being reported. These data items contain the scores of the clinical assessment tool being used.

The data items used, by assessment measure, are as follows:

- FIM™ Score: Item 1 to Item 18 (excluding Item 8a)
- HoNOS 65+ Score: Item 1 to Item 12 (including Item 8a)
- RUG-ADL Score: Item 1 to Item 4

Data items for the palliative care type are reported for each phase of care in a palliative care episode.

A maximum of eleven phases of care changes within a palliative care episode may be reported, with the last phase being the phase at the end of the episode.

Position	Data Element	Data Type	Format	Length	Requirement
1	Account Number	String	X[X(11)]	12	Mandatory

## Appendix C – Rehabilitation data elements

Data Element	Data Type	Format	Permitted Values
Account Number	String	X[X(11)]	Alphanumeric combination up to 12 characters
Admission Date	Date	DDMMYYYY	Valid date
Assessment Date	Date	DDMMYYYY	Valid date
Assessment Only	Numeric	N	1 – Yes 2 – No 8 – Unknown 9 – Not stated/inadequately described
Care Type	Numeric	NN	22 – Rehabilitation care
Establishment Code	Numeric	N(4)	Valid establishment code. Refer to <a href="#">Establishment Code List</a>
FIM™ Score	Numeric	N	1 – Total assistance with helper 2 – Maximal assistance with helper 3 – Moderate assistance with helper 4 – Minimal assistance with helper 5 – Supervision or setup with helper 6 – Modified independence with helper 7 – Complete independence
Impairment Code	Numeric	NN.NNNN	Refer to <i>Appendix B: AROC Impairment Codes</i> in the <a href="#">SANADC Data Dictionary</a> .
Last Amended	Date	DDMMYYYY	Valid date
Record Creation Date	Date	DDMMYYYY	Valid date
Separation Date	Date	DDMMYYYY	Valid date
UMRN	String	X[X(9)]	Alphanumeric combination

No Longer Applicable  
Superseded 1 July 2026

## Appendix D – GEM data elements

Data Element	Data Type	Format	Permitted Values
Account Number	String	X[X(11)]	Alphanumeric combination up to 12 characters
Admission Date	Date	DDMMYYYY	Valid date
Assessment Date	Date	DDMMYYYY	Valid date
Assessment Only	Numeric	N	1 – Yes 2 – No 8 – Unknown 9 – Not stated/inadequately described
Care Type	Numeric	NN	29 – Geriatric Evaluation and Management
Establishment Code	Numeric	N(4)	Valid establishment code. Refer to <a href="#">Establishment Code List</a> .
FIM™ Score	Numeric	N	1 – Total assistance with helper 2 – Maximal assistance with helper 3 – Moderate assistance with helper 4 – Minimal assistance with helper 5 – Supervision or setup with helper 6 – Modified independence with helper 7 – Complete independence
Last Amended	Date	DDMMYYYY	Valid date
Record Creation Date	Date	DDMMYYYY	Valid date
Separation Date	Date	DDMMYYYY	Valid date
SMMSE Completed	Numeric	N	1 – Yes 2 – No 9 – Unknown
SMMSE Date	Date	DDMMYYYY	Valid date
SMMSE Score	Numeric	N	0 – Score of 0 1 – Score of 1 2 – Score of 2 3 – Score of 3 4 – Score of 4 5 – Score of 5 7 – Not applicable – item has been omitted 8 – Unknown 9 – Not stated/inadequately described
UMRN	String	X[X(9)]	Alphanumeric combination

No Longer Applicable  
Superseded 1 July 2026

## Appendix E – Psychogeriatric data elements

Data Element	Data Type	Format	Permitted Values
Account Number	String	X[X(11)]	Alphanumeric combination up to 12 characters
Admission Date	Date	DDMMYYYY	Valid date
Assessment Date	Date	DDMMYYYY	Valid date
Assessment Only	Numeric	N	1 – Yes 2 – No 8 – Unknown 9 – Not stated/inadequately described
Care Type	Numeric	NN	24 – Psychogeriatric care
Establishment Code	Numeric	N(4)	Valid establishment code. Refer to <a href="#">Establishment Code List</a>
HoNOS 65+ Score	Numeric	N	0 – No problems within the period rated 1 – Minor problem requiring no action 2 – Mild problem but definitely present 3 – Moderately severe problem 4 – Severe to very severe problem 9 – Not known or not applicable
Last Amended	Date	DDMMYYYY	Valid date
Record Creation Date	Date	DDMMYYYY	Valid date
Separation Date	Date	DDMMYYYY	Valid date
UMRN	String	X[X(9)]	Alphanumeric combination

No Longer Applicable  
Superseded 1 July 2026

## Appendix F – Palliative data elements

Data Element	Data Type	Format	Permitted Values
Account Number	String	X[X(11)]	Alphanumeric combination up to 12 characters
Admission Date	Date	DDMMYYYY	Valid date
Assessment Only	Numeric	N	1 – Yes 2 – No 8 – Unknown 9 – Not stated/inadequately described
Care Type	Numeric	NN	23 – Palliative care
Establishment Code	Numeric	N(4)	Valid establishment code. Refer to <a href="#">Establishment Code List</a>
Last Amended	Date	DDMMYYYY	Valid date
Record Creation Date	Date	DDMMYYYY	Valid date
Separation Date	Date	DDMMYYYY	Valid date
UMRN	String	X[X(9)]	Alphanumeric combination
<i>The variables below are required to be recorded for each palliative phase</i>			
Assessment Date	Date	DDMM YYYY	Valid date
Phase End Date	Date	DDMMYYYY	Valid date
Phase Start Date	Date	DDMMYYYY	Valid date
Phase Type	Numeric	N	1 – Stable 2 – Unstable 3 – Deteriorating 4 – Terminal 9 – Not stated/inadequately described
RUG-ADL Score	Numeric	N	<i>Scoring scale for bed mobility, toileting and transfers:</i> 1 – Independent or supervision only 3 – Limited physical assistance 4 – Other than two persons physical assist 5 – Two or more persons physical assist <i>Scoring scale for eating:</i> 1 – Independent or supervision only 2 – Limited assistance 3 – Extensive assistance/total dependence/tube fed

No Longer Applicable. July 2026. Superseded

## Appendix G – Maintenance/Non-acute data elements

Data Element	Data Type	Format	Permitted Values
Account Number	String	X[X(11)]	Alphanumeric combination up to 12 characters
Admission Date	Date	DDMMYYYY	Valid date
Assessment Date	Date	DDMMYYYY	Valid date
Care Type	Numeric	NN	25 – Maintenance/Non-acute care
Establishment Code	Numeric	N(4)	Valid establishment code. Refer to <a href="#">Establishment Code List</a>
Last Amended	Date	DDMMYYYY	Valid date
Record Creation Date	Date	DDMMYYYY	Valid date
Separation Date	Date	DDMMYYYY	Valid date
Type of Maintenance/ Non-Acute Care	Numeric	NN	1 – Convalescent 2 – Respite 3 – Nursing home type 8 – Other 98 – Unknown 99 – Not stated/inadequately described
UMRN	String	X[X(9)]	Alphanumeric combination

No Longer Applicable.  
Superseded 7 July 2026.

## Appendix H – Summary of revisions

Date Released	Author	Approval	Amendment
1 July 2021	David Oats	Rob Anderson, Assistant Director General, Purchasing and System Performance	Document created.
1 July 2022	David Oats	Rob Anderson, Assistant Director General, Purchasing and System Performance	Dates updated.  Superseded QoCR system references replaced by AOS.  Superseded AN-SNAP Version 4.0 references replaced by AN-SNAP Version 5.0.
1 July 2023	David Oats	Rob Anderson, Assistant Director General, Purchasing and System Performance	Dates updated.  Changed IHPA references to IHACPA and updated IHACPA website links.
1 July 2024	David Oats	Rob Anderson, Assistant Director General, Purchasing and System Performance	Dates updated.  Added note explaining requirement to submit SMMSE data for GEM episodes only applies when an SMMSE has been performed.  Added Palliative Phase of Care to Glossary  Corrected error in HoNOS 65+ Code list of permitted values.  Removed information about non-SANA care types.  Removed 'Last Amended By' data element.
30 June 2025	Jodie McNamara	Rob Anderson, Assistant Director General, Purchasing and System Performance	Dates updated.  Updated 'Department of Health' to 'the System Manager' where relevant  Removed reference to RUG-ADL scores being required as an assessment type for Maintenance/Non-acute care type classification.  Added note highlighting use of FRIC scores for Maintenance/Non-acute care type classification.  Changed references from Maintenance care to Maintenance/Non-acute care.  Updated required data elements for Maintenance/Non-acute care.

No Longer Applicable  
Superseded 1 July 2025

			<p>Added Admission Time and Separation Time</p> <p>Replacement of the term 'Health Service Provider' with 'WA Health entities', where applicable.</p> <p>Inclusion of the term 'WA Health entities' in the Glossary,</p>
