

Language Services Policy

1. Purpose

The WA health system is committed to providing high quality, safe and accessible health care to all Western Australians who may need language assistance when using WA health system services. This includes those who cannot effectively communicate in written and/or spoken standard Australian English (Standard English) such as some Aboriginal people, some people from culturally and linguistically diverse backgrounds, and people who are Deaf or hard of hearing who communicate in Auslan.

The Language Services Policy (the policy) establishes the minimum standards to enable effective communication with consumers and carers who have difficulty communicating in Standard English, or who are Deaf or hard of hearing, for the delivery of culturally appropriate and/or trauma informed care that is equitable, non-discriminatory, respectful and safe.

This policy supports the delivery of free, targeted language services that promote fundamental consumer rights such as access to high quality care and services, safety, respect, communication and participation.

The policy aligns to the State Government [Western Australian Language Services Policy 2020](#) and the Department of Health's [MP 0180/23 Work Health and Safety Management Policy](#).

This policy is a mandatory requirement for Health Service Providers under the *Communications Policy Framework* pursuant to section 26(2)(c) of the *Health Services Act 2016*.

This policy is also a mandatory requirement for the Department of Health pursuant to section 29 of the *Public Sector Management Act 1994*.

2. Applicability

This policy is applicable to WA health entities.

The requirements contained within this policy are applicable to the services purchased from contracted health entities where it is explicitly stated in the contract between the contracted health entity and the State of Western Australia or Health Service Provider. The State of Western Australia or Health Service Provider contract manager is responsible for ensuring that any obligation to comply with this policy by the contracted health entity is accurately reflected in the relevant contract and managed accordingly.

3. Policy Requirements

3.1 WA health entities must:

- apply language service procedures relevant to their workplace, to enable appropriate and timely engagement of interpreters and translators, particularly to manage situations with health, legal or other risks for consumers or the WA health system
- provide all consumers and carers who need assistance with standard English with access to appropriate interpreting and translating assistance
- ensure staff members who engage with consumers and carers, have the cultural and linguistic knowledge and skills to assess the need for language services through appropriate training
- engage tertiary qualified and/or National Accreditation Authority for Translators and Interpreters (NAATI) credentialed interpreters and translators through the Common User Arrangement (CUA) for interpreting and translating services
- ensure that interpreters and translators engaged in 'child-related work' as defined by the *Working with Children (Criminal Record Checking) Act 2004* hold a current Working with Children Card
- ensure appropriate pre-briefings and debriefings are undertaken with the interpreter as required
- ensure that adequate provisions are made for the health, safety and wellbeing of the interpreter during the session
- develop information in accessible formats for those who are not described in this policy, such as some people with cognitive disabilities or acquired brain injuries, but who still require assistance with standard English.

3.2 All new staff members must complete the WA Health Language Services eLearning module (available through My Learning) within 6 months of their commencement date.

4. Compliance Monitoring

WA health entities must report the following information to the System Manager using the Language Services Annual Report Template:

- Number of staff who have completed language services training.
- Number of staff who have completed cultural awareness training.
- Number of interpreters engaged, identified by language.
- Expenditure on interpreters, identified by language.
- Number of translations completed, identified by language.
- Expenditure on translators, identified by language.
- Number of requests for written information developed in accessible alternative format/s, identified by type of format.
- Expenditure on the development of information in accessible alternative format, identified by type of format.

The Cultural Diversity Unit, Department of Health, on behalf of the System Manager, will collate the data received and prepare a submission of the summary annual report to ensure alignment with policy requirements.
