

Industrial Relations Directive

Reference: IRD 07/2024

Effective from: 9 July 2024

Excess Leave Management for Senior Medical Practitioners

Intention

This Industrial Relations Directive (IRD) provides direction for cashing out excess annual leave or excess long service leave for Senior Medical Practitioners (SMPs) in accordance with the [WA Health System – Medical Practitioners – AMA Industrial Agreement 2022](#) (Agreement).

This IRD is in alignment and to be read in conjunction with [MP 0100/18 Management of Accrued Leave Policy](#), and the Department of Energy, Mines, Industry Regulation and Safety, Government Sector Labour Relations' (GSLR) Policy Statement – *Management of Accrued Leave in the Public Sector*.

This IRD supports the application of MP 0025/16 *Industrial Relations Policy*.

Applicability

This IRD is applicable to WA Health Entities who employ SMPs.

This IRD is not applicable to medical practitioners employed pursuant to the *WA Health System – Medical Practitioners (Clinical Academics) AMA Industrial Agreement 2022* or its replacement.

Direction

Relevant provisions in the Agreement provide for SMPs to cash out excess annual leave or excess long service leave.

If excess annual leave or excess long service leave is cashed out under an approved Employee Leave Management Plan, any applicable Arrangement A private practice income allowance and professional development allowance must also be paid. Payment must be made in the same terms as would have applied if that period of annual leave or long service leave cashed out had been taken rather than cashed out.

There is no entitlement to have any allowance, expressed as an annual allowance payable during a period of leave (including but not limited to private practice income allowance and professional development allowance) paid when accrued and pro rata leave is paid out on separation of employment (e.g. expiry of fixed term contract or retirement).

HSPs must make any Employee Leave Management Plan available to the System Manager

upon request.
