

Information Breach Policy

1. Purpose

The Information Breach Policy outlines the mandatory requirements to manage and respond to an information breach and to mitigate future breaches.

An information breach occurs when information that an entity holds is subject to unauthorised access, use or disclosure, or is lost, damaged or destroyed. An information breach may be caused by malicious action (by an external or insider party), human error, or a failure in information handling or security systems. It can involve different types of information and give rise to a range of actual or potential harms to the individuals and WA health entities whose information is compromised.

This policy applies to all information generated, collected, accessed, used, managed, stored and disclosed by the WA health system including, but not limited to, information collected under the *Health Services Act 2016*, *Health (Miscellaneous Provisions) Act 1911*, *Mental Health Act 2014*, *Private Hospital and Health Services Act 1927*, *Public Health Act 2016*, *Public Sector Management Act 1994* or any other written law.

This policy is a mandatory requirement under the *Information Management Policy Framework* pursuant to section 26(2)(k) of the *Health Services Act 2016*.

This policy is a mandatory requirement for the Department of Health pursuant to section 29 of the *Public Sector Management Act 1994*.

2. Applicability

This policy is applicable to the WA health entities.

The requirements contained within this policy are applicable to the services purchased from contracted health entities where it is explicitly stated in the contract between the contracted health entity and the State of Western Australia or Health Service Provider. The State of Western Australia or Health Service Provider is responsible for ensuring that any obligation to comply with this policy by the contracted health entity is accurately reflected in the relevant contract and managed accordingly.

3. Policy Requirements

WA health entities are required to:

- manage information breaches in accordance with the Information Breach Response Standard
- complete the Information Breach Notification Form in all instances of an information breach or suspected information breach

- develop local policies, processes and/or procedures in place to ensure compliance with this policy
- determine the appropriate roles and responsibilities to address the circumstances of the breach.

In addition to the mandated requirements in this policy, any breach that relates to a suspected breach of discipline or code of conduct must also be reported in accordance with the [MP 0124/19 Code of Conduct Policy](#).

4. Compliance Monitoring

The System Manager, through the Information and Performance Governance unit, Department of Health, may carry out compliance audits to ascertain the level of compliance with this policy and to provide updates to Information Stewards, Chief Executives of Health Service Providers, the Director General and other relevant persons regarding the findings of compliance monitoring activities.

To facilitate compliance monitoring, WA health entities are required to provide any information and/or resources requested by the Department of Health as required.
