1. Purpose

The purpose of the *Emergency Department Data Collection Data Specifications* is to outline the requirements for Health Service Providers and Contracted Health Entities to report emergency department patient activity to the Department of Health, as the System Manager.

The *Emergency Department Data Collection Data Specifications* is a related document mandated under [MP 0164/21 Patient Activity Data Policy](#).

These data specifications are to be read in conjunction with this policy and other related documents and supporting information as follows:

- [Emergency Department Patient Activity Data Business Rules](#)
- [Emergency Department Data Collection Data Dictionary](#)
- [Patient Activity Data Policy Information Compendium](#).

2. Background

Emergency Department patient data must be recorded in approved Patient Administration Systems (PAS) and/or Health Information Systems in an accurate and timely manner so that the data are available and can be accessed for inclusion into the Emergency Department Data Collection (EDDC).

3. Contact details requirements

Data providers must complete the contact details form ([Appendix A](#)) and provide contact details for two people who can be contacted in the event of data submission queries or issues:

- ICT technical contact – for data load/extract issues
- Information management contact – for data queries.

4. Submission of data

Data must be submitted to EDDC in accordance with the data submission schedule ([Section 5](#)) and data element listing ([Section 6](#)) outlined below, unless otherwise agreed to with the EDDC Custodian.

5. Data submission schedule

Data must be made available for the relevant reporting period as per the schedule set below.

5.1 Daily extracts

PAS	Reporting Period	Provided to EDDC	Notes
EDIS	Daily data for the previous 90 days	1:00 am	Direct access to the EDIS backend SQL server
webPAS	Daily data for the previous 90 days	6:30 am	HSS provides daily full extraction file
Midland webPAS	Daily data for the previous 90 days	6:45 am	St John of God Midland provides daily extraction file

5.2 Monthly extracts

PAS	Reporting Period	Provided to EDDC	Notes
webPAS	Monthly	Full refreshes are loaded on 5 th of each month at 2:00 pm.	Daily webPAS load occurs at regular time on the same day.

6. Data element listing

Data providers must ensure that data is made available as per the specifications in the following appendices:

- [Appendix B – Emergency Department Data Collection.](#)

7. Data quality and validation correction process

Data providers are responsible for the quality of data provided. Data quality validations are undertaken by the Quality and Assurance Team at the Department of Health to ensure that data is compliant with reporting specifications, and the five data quality principles:

- relevance
- accuracy
- timeliness
- coherence
- interpretability.

Data validation and errors will be distributed to the reporting hospital via dashboards, spreadsheets or ad hoc communication.

It is the responsibility of health care providers, administrative, clinical coding and clerical staff to complete and confirm correct data validations within required timeframes as communicated by the Department.

Some examples of data quality validations may include:

- Patient demographics
- Reporting of blank or invalid values
- Availability of sufficient information to enable reporting to the Independent Hospital and Aged Care Pricing Authority.

For the full list of current EDDC data quality validations, refer to the [EDDC Data Validation Manual](#).

8. Definitions

The following definition(s) are relevant to this document.

Term	Definition
Custodian	A custodian manages the day-to-day operations of the information asset(s) and implements policy on behalf of the Steward and Sponsor.
Data Collection	Refer to Information Asset.
