All 'PRN' orders should be reviewed after 24 hours.

Maximum dose is inclusive of regular doses prescribed on the Hospitality Medication Chart.

Refer to local guidelines for recommended medication regimens.

Rating scale

5. Highly aroused*, violent towards self, others or property
4. Highly aroused* and possibly distressed or fearful, possibly noisy but not violent
3. Moderately aroused*, agitated, becoming more vocal and unreasonable or hostile
2. Mildly aroused*, pacing, still wanting to talk reasonably
1. Settled, minimal agitation, PRN not required
0. Asleep or unconscious → escalate care as per local policy for clinical deterioration

* Aroused = agitated, distressed, fearful, noisy, threatening or verbally abusive

Date	Time	Step given	Dose given	Route	1 st Rating	Nurse 1 Nurse 2	2 nd Rating	Time	Sign	3 rd Rating	Time	Sign	Cumulative 24 hour dose
