Tips for Interviewing	Contact Tracing	To jog patient's memory	To jog patient's memory	Inform the patient															
<ul style="list-style-type: none"> Take your time Be non-judgemental Use plain English Ask direct questions, e.g. <i>Who did you have sex with?</i> DO NOT use ambiguous terms, e.g. <i>sleep with</i> 	<table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Disease</th> <th style="text-align: center;">M</th> <th style="text-align: center;">F</th> </tr> </thead> <tbody> <tr> <td>Gonorrhoea</td> <td style="text-align: center;">3 Mnths</td> <td style="text-align: center;">3 Mnths</td> </tr> <tr> <td>Chlamydia</td> <td style="text-align: center;">3 Mnths</td> <td style="text-align: center;">3 Mnths</td> </tr> <tr> <td>If lesions present</td> <td style="text-align: center;">3 Mnths</td> <td style="text-align: center;">3 Mnths</td> </tr> <tr> <td>If contact of positive syphilis</td> <td style="text-align: center;">24 Mnths</td> <td style="text-align: center;">24 Mnths</td> </tr> </tbody> </table>	Disease	M	F	Gonorrhoea	3 Mnths	3 Mnths	Chlamydia	3 Mnths	3 Mnths	If lesions present	3 Mnths	3 Mnths	If contact of positive syphilis	24 Mnths	24 Mnths	<ul style="list-style-type: none"> Link sexual encounters with events significant to the patient, e.g. <i>rodeos, Easter, Xmas, visits to relatives.</i> Start with the most recent sexual encounter and work backwards 	<ul style="list-style-type: none"> Stress the importance of an accurate contact history (prevents re-infection of the patient, female infertility, congenital STI in babies, STI spreading in their community) Get a description of the contact - <i>Where does s/he live? What does s/he look like? Who does s/he associate with?</i> Ask patient (if literate) to write names of contacts on paper 	<ul style="list-style-type: none"> All information re sexual history and lab tests is confidential Lab test results will go to their doctor and Kimberley Population Health Unit.
Disease	M	F																	
Gonorrhoea	3 Mnths	3 Mnths																	
Chlamydia	3 Mnths	3 Mnths																	
If lesions present	3 Mnths	3 Mnths																	
If contact of positive syphilis	24 Mnths	24 Mnths
