

Contact details for Western Australian rural and regional falls prevention services available

The WA Country Health Services deliver a range of services and programs specifically developed to meet the needs of older adults at risk of falls. While Falls Clinics and Falls Specialist programs are available in some Regional Areas, older adults in all areas also have access to specialist medical review (if needed) by Resident Geriatricians, TeleGeriatric Clinics (where delivered) or by a Visiting Geriatrician service. These can further advise with regards to falls prevention and liaise with the local medical and allied health team in the region regarding suggested interventions.

The Regional Aged Care Teams can offer advice and support to access appropriate falls prevention services:

Region	Aged Care Team phone number
Goldfields	(08) 9080 5772
Great Southern	(08) 9892 8215
Midwest	(08) 9956 2311
South West	(08) 9781 4000
Wheatbelt	(08) 9690 1626
Kimberley	(08) 9192 0333
Pilbara	(08) 9174 1083
